

Bins not presented will not be collected

Residents are advised that kerbside bins need to be correctly presented prior to the collection service occurring.

Bins are required to be presented at the roadside in an accessible location for the drivers to collect.

- It is the responsibility of the householder to put the bins out, ready for collection the night before each scheduled collection day.
- Place bins facing the road with wheels towards the house.
- Keep bins away from objects such as letterboxes, trees and parked cars.
- Lids must be closed, not overfilled, to avoid litter caused by wind and animals.
- Bins not presented or presented in the wrong position, will not be collected, even if full.
