# Introduction

The purpose of the Community Engagement Strategy is to enhance our engagement through a framework that guides how we involve and listen to our Snowy Monaro community. This framework will help shape our region's aspirations, build foundations for our community, and provide opportunities for all voices to be heard. Our goal is to achieve meaningful planning and service delivery outcomes that reflect our community's priorities and needs.

This document outlines the expected levels and methods of engagement that Council will undertake over the next four years.

Our five corporate values form the foundation on which our Community Engagement Strategy is built. This strategy will play a crucial role in Council achieving our vision of being a trusted community partner.

# Vision

The Community Engagement Strategy provides a framework to guide how we involve and listen to stakeholders and the community. Through clear and meaningful community engagement, Snowy Monaro Regional Council will seek out, create, and facilitate opportunities for community members to provide input, be heard, and shape our collective future in a meaningful and tangible way through their participation.

We will report back to our community on what we hear to demonstrate how your engagement leads to action that reflects the needs and priorities of our community.

We aim to ensure that everyone across our region receives reliable and timely information on which to base their views and opinions. Put simply: you'll receive the information you want when you need it, and when you speak with us, your input will matter. Our role is to facilitate a constructive two-way avenue of communication between Council and our community, partnering together to build a better future for the region.

# Our region

We are a region that takes pride in its history. Snowy Monaro Regional Council acknowledges that Aboriginal people – the Bidjawal, Ngarigo, Walgalu, and Southern Ngunnawal - are the original inhabitants and remain the custodians of the land on which we live and work.

Our region is culturally diverse, thanks in part to the Snowy Scheme that saw more than 100,000 people from over 30 countries flock to the area to work on one of the civil engineering wonders of the modern world. To this day, our region enjoys the many benefits of our multicultural society, with the number of countries, ethnic backgrounds, language groups, and people continuing to grow.

The Snowy Monaro region is home to 21,659 people\* and reflects a degree of cultural diversity that has its roots in agriculture, early gold mining, the Snowy Mountains Scheme, timber logging, and tourism.

The region covers 15,162 square kilometres with major urban areas surrounded by rolling plains and mountain ranges. While Council's head office is located in Cooma, an additional three locations in Berridale, Bombala, and Jindabyne provide services to our community.

\*Population data as of the 2021 Australian Census, residents who note this region as their usual place of residence.

# Community engagement practices

Council is committed to delivering communication aligned with the International Association of Public Participation (IAP2) principles of the Public Participation Spectrum. The Code of Ethics for Public Participation Practitioners supports and reflects IAP2's Core Values for the Practice of Public Participation. These Core Values define the expectations and aspirations of the public participation process.

The following table, based on the IAP2 Spectrum of Public Participation, is designed to assist with the selection of the level of participation that defines the public's role in any community engagement program.

The Spectrum demonstrates that differing levels of participation are legitimate depending on the goals, time frames, resources, and levels of concern in the decision to be made. Most importantly, the Spectrum sets out the promise being made between Snowy Monaro Regional Council and our community at each participation level.

# Encouraging conversations

Adhering to IAP2 Core Value 6, we will ensure that stakeholders have fair and equal access to the public participation process and the opportunity to influence decisions. Council's core delivery principle for engagement is inclusive and equity-centred.

- Use of accessible venues
- Promotion of accessibility options
- Ensuring a range of engagement methods are used
- Provision of easy-to-read materials or direct support to interpret documents
- Choosing venues that are safe, located in visible and public spaces, and directly accessible

# Community engagement process

Our region follows the process below when implementing community and stakeholder engagement. This ensures a planned approach that is consistent and aligned with our principles for community engagement.

## High impact

There is a high level of impact or risk (perceived or real) on the region as a whole or a section of the community. There is potential for any decision to create controversy and/or have varying levels of acceptance within the community.

## Medium impact

There is a medium level of impact or risk (perceived or real) on the region as a whole or a section of the community. It is likely that the majority of the impacted community will accept the decision; however, the decision may inconvenience some sections of the community.

## Low impact

There is a low level of impact or risk (perceived or real) on the region as a whole or a section of the community. It is likely that the community will widely accept the decision and view it as having positive outcomes or being necessary.

# Community engagement plan

In preparing for engagement, Council aims to involve inclusive conversations in our communities, including those community members who may require alternate considerations, such as those with a disability, women, young people, older people, working families, remote living (connectivity limitations), and culturally diverse communities. Council will advise the community on the negotiable elements for each project, asking for input on community expectations. At times, there will be occasions where community engagement cannot define the outcome of the decision-making due to (but not limited to):

- Legislation and compliance
- Budget, revenue and funding stipulations
- Work, health and safety
- Procurement

# Monitoring and measuring progress

Council's Communications Portfolio now has the foundations and skills to grow, adapt, and connect more comprehensively than ever with our community through existing and emerging networks. This strategy provides the framework to ensure our processes are open, honest, and transparent to our community, and it will provide pathways for residents to contribute to making the Snowy Monaro a desirable place to live, work, and visit.

Council will proudly grow its reputation through various engagement activities, events, and services to the community, being more visible, proactive, and approachable.

With the Community Engagement Strategy, Council seeks to remain a trusted community partner by being mindful, open, respectful, and responsive.

We will engage with our community, listen to the voices of our community, and build a foundation for innovative achievements, always striving for continuous improvements, evolving practices, and better methods to ensure we remain contemporary and relevant.

We will use consistent best practices to continuously and proactively assess the success of our engagement activities.

Measured against demographic data and judged by the relevance and quality of the data obtained through the engagement, it is our goal that everyone in the Snowy Monaro has the opportunity to engage with us on the subjects and issues that they care about.

It is our responsibility to ensure that equality of access and opportunity is available to all, and where we find that we have fallen short, we will do what is necessary to ensure every member of our community can participate and play a substantive role in our collective decision-making.

We will achieve this through reviews of data, consultation exit surveys, follow-up questionnaires, a community satisfaction survey, and whatever means is appropriate to not only self-assess but also hear from participants how we did and where we, as a Council, can improve.

Furthermore, we aim to be transparent, open, and share this data and these measures of our success with the community.
